FUNCTIONAL REQUIREMENTS

The list of examples of functional requirements includes:

Business Rules

Transaction corrections, adjustments, and cancellations

Administrative functions

Authentication

Authorization levels

Audit Tracking

External Interfaces

NON FUNCTIONAL REQUIREMENTS

Usability

Legal or Regulatory Requirements

Reliability

Performance

TECHNOLOGY USED

Technology enhanced learning (TEL) aims to design, develop and test socio-technical innovations that will support and enhance learning practices of both individuals and organisations. It is therefore an application domain that generally covers technologies that support all forms of teaching and learning activities. Since information retrieval (in terms of searching for relevant learning resources to support teachers or learners) is a pivotal activity in TEL, the deployment of recommender systems has attracted increased interest. Introduction to recommender systems for TEL settings, as well as to highlight their particularities compared to recommender systems for other application domains.
